COMMENTARY

TIF class G Euro produced 0.05% for the month of October, bringing the year-to-date return to 6.8%. October saw further deterioration in the equity markets with the developed indices off -17% in the US (-34% YTD), -13% in Europe (-39% YTD) with worse declines in Japan -24% (YTD -44%) and Hong Kong -23% (YTD -50%). Coordinated rate cuts by the FED, ECB and BOE combined with equity injections into the banking system appear to be working as the bank CDS spreads halved during the month. Such sentiment was not shared by the consumer with US and EU surveys dropping to levels last seen in the late '70s and early '90s respectively. Commodity markets dropped -22% for October (-25% YTD), with gold also losing its allure falling -18% on the month.
